

TP-PA120

RUTILE TITANIUM DIOXIDE | PAPER

TIOVAR TP-PA120 is a chloride-process rutile titanium dioxide pigment described by the supplier as having special surface treatment. It is intended for formulation evaluation in laminated decorative base paper.

Applications

- Formulation evaluation in decorative paper, especially high-whiteness laminated decorative paper

Supplier-reported Key Features

- Unique bluish tone
- Stable and bright whiteness
- Excellent covering power
- Outstanding retention performance
- Excellent UV resistance performance

Reported Technical Data

Property	Reported Value
TiO ₂ content, %	89
Rutile content, %	99.9
L*	99.3
b*	0.70
Specific gravity, g/cm ³	4.0
pH	6.0

Performance & Packaging

Viscosity The supplier qualitatively describes outstanding retention performance for this paper grade. Verification in the intended formulation is required.

Packaging Packaging is not stated in the supplier TDS. The supplied packaging artwork is a concept mockup only and is not approved evidence of pack size, label text, or legal attribution.

Safety / SDS Status

An aligned SDS was not provided for this draft. Confirm the supplied-product identifier, issuing entity, emergency contact, and revision before external use.

Supplier-reported values reproduce the primary supplier TDS. The source does not state test methods, tolerances, or whether values are typical or specification limits. Product suitability must be evaluated in the intended formulation. Legal attribution, company contacts, SDS/COA issuer and packaging details remain unconfirmed and are withheld from public use.

Release Status

Pending user confirmation before public use: brand owner; manufacturer / manufactured-for / distributor; SDS and COA issuer; packaging label entity; company contact details; trademark status.

DRAFT - NOT APPROVED FOR PUBLIC USE
