

TP-H100

RUTILE TITANIUM DIOXIDE | HIGH-PURITY FUNCTIONAL APPLICATIONS

TIOVAR TP-H100 is a high-purity titanium dioxide grade described by the supplier as being produced by a vapor-phase oxidation method. The supplier reports high purity, low impurity content, narrow particle size distribution, good dispersion and stable quality between batches. It is intended for formulation evaluation in high-purity functional applications.

Applications

- Formulation evaluation in electronic ceramics including MLCC, PTC, VDR and soft ferrite
- Formulation evaluation in optical glass and battery applications
- Formulation evaluation in cosmetics, medicine and special metallurgy applications

Supplier-reported Key Features

- High purity, low impurity content and stable quality
- High dielectric constant and excellent electrical properties

Reported Technical Data

Property	Reported Value
TiO ₂ content, %	99.97
Rutile content, %	99
Specific surface area, m ² /g	<6; 6-8; 8-10
Volatile matter, %	0.1
Al, %	0.0020
Fe, %	0.0010
K, %	0.0001
Na, %	0.0050
P, %	0.0005

Performance & Packaging

Viscosity The supplier reports good dispersion. Formulation-specific viscosity must be verified.

Packaging Packaging is not stated in the supplier TDS. The supplied packaging artwork is a concept mockup only and is not approved evidence of pack size, label text, or legal attribution.

Safety / SDS Status

An aligned SDS was not provided for this draft. Confirm the supplied-product identifier, issuing entity, emergency contact, and revision before external use.

Supplier-reported values reproduce the primary supplier TDS. The source does not state test methods, tolerances, or whether values are typical or specification limits. The supplier table presents three specific-surface-area entries without variant labels; values are reproduced without assigning them to subgrades/variants. Product suitability must be evaluated in the intended formulation. Legal/contact details, SDS/COA issuer and packaging remain pending and are not for public use.

Release Status

Pending user confirmation before public use: brand owner; manufacturer / manufactured-for / distributor; SDS and COA issuer; packaging label entity; company contact details; trademark status.

DRAFT - NOT APPROVED FOR PUBLIC USE
